SUMMARY

A highly motivated person who is passionate about things in digital and programming I'm bravely started switching my career from economic academic and administrative staff to the digital world, starting from UI/UX design and currently working as a backend/web developer. I'm ready to apply my skills and enthusiasm to face challenging opportunities and contribute to the company.

EXPERIENCE

Backend/Web Developer

PT Pundi Mas Berjaya

📅 07/2022 - Present   📍 Medan

- Build and maintain Web Application using Laravel
